

INVESTOR PRESENTATION THIRD QUARTER 2016

Aspen Insurance Holdings Limited

SAFE HARBOR DISCLOSURE

This slide presentation is for information purposes only. It should be read in conjunction with our financial supplement posted on our website on the Investor Relations page and with other documents filed or to be filed shortly by Aspen Insurance Holdings Limited (the "Company" or "Aspen") with the United States Securities and Exchange Commission (the "SEC").

Non-GAAP Financial Measures: In presenting Aspen's results, management has included and discussed certain "non-GAAP financial measures" as such term is defined in Regulation G. Management believes that these non-GAAP financial measures, which may be defined differently by other companies, better explain Aspen's results of operations in a manner that allows for a more complete understanding of the underlying trends in Aspen's business. However, these measures should not be viewed as a substitute for those determined in accordance with GAAP. The reconciliation of such non-GAAP financial measures to their respective most directly comparable GAAP financial measures is included herein or in the financial supplement, as applicable, which can be obtained from the Investor Relations section of Aspen's website at www.aspen.co.

Application of the Safe Harbor of the Private Securities Litigation Reform Act of 1995: This presentation contains written or oral "forward-looking statements" within the meaning of the U.S. federal securities laws. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that do not relate solely to historical or current facts, and can be identified by the use of words such as "expect," "assume," "objective," "intend," "plan," "believe," "do not believe," "aim," "project," "anticipate," "seek," "will," "likely," "estimate," "may," "continue," "guidance," "outlook," "trends," "future," "could," "would," "should," "target," "on track" and similar expressions of a future or forward-looking nature. All forward-looking statements address matters that involve risks and uncertainties. Accordingly, there are or will be important factors that could cause actual results to differ materially from those indicated in these statements. Aspen believes these factors include, but are not limited to: our ability to successfully implement steps to further optimize the business portfolio, ensure capital efficiency and enhance investment returns; the possibility of greater frequency or severity of claims and loss activity, including as a result of natural or man-made (including economic and political risks) catastrophic or material loss events, than our underwriting, reserving, reinsurance purchasing or investment practices have anticipated; the assumptions and uncertainties underlying reserve levels that may be impacted by future payments for settlements of claims and expenses or by other factors causing adverse or favorable development, including our assumptions on inflation costs associated with long-tail casualty business which could differ materially from actual experience; the impact of the vote and resulting negotiations as a result of the vote by the U.K. electorate in favor of a U.K. exit from the European Union in a recent referendum; the reliability of, and changes in assumptions to, natural and man-made catastrophe pricing, accumulation and estimated loss models; decreased demand for our insurance or reinsurance products and cyclical changes in the insurance and reinsurance industry; the models we use to assess our exposure to losses from future natural catastrophes contain inherent uncertainties and our actual losses may differ significantly from expectations; our capital models may provide materially different indications than actual results; increased competition from existing insurers and reinsurers and from alternative capital providers and insurance linked funds and collateralized special purpose insurers on the basis of pricing, capacity, coverage terms, new capital, binding authorities to brokers or other factors and the related demand and supply dynamics as contracts come up for renewal; our ability to execute our business plan to enter new markets, introduce new products and develop new distribution channels, including their integration into our existing operations; our acquisition strategy; changes in market conditions in the agriculture industry, which may vary depending upon demand for agricultural products, weather, commodity prices, natural disasters, and changes in legislation and policies related to agricultural products and producers; termination of, or changes in, the terms of the U.S. Federal Multiple Peril Crop Insurance Program or the U.S. Farm Bill, including modifications to the Standard Reinsurance Agreement put in place by the Risk Management Agency of the U.S. Department of Agriculture; the recent consolidation in the (re)insurance industry; loss of one or more of our senior underwriters or key personnel; changes in our ability to exercise capital management initiatives (including our share repurchase program) or to arrange banking facilities as a result of prevailing market conditions or changes in our financial position; changes in the availability, cost or quality of reinsurance or retrocessional coverage; changes in general economic conditions, including inflation, deflation, foreign currency exchange rates, interest rates and other factors that could affect our financial results; the risk of a material decline in the value or liquidity of all or parts of our investment portfolio; the risks associated with the management of capital on behalf of investors; evolving issues with respect to interpretation of coverage after major loss events; our ability to adequately model and price the effects of climate cycles and climate change; any intervening legislative or governmental action and changing judicial interpretation and judgments on insurers' liability to various risks; the risks related to litigation; the effectiveness of our risk management loss limitation methods, including our reinsurance purchasing; changes in the total industry losses, or our share of total industry losses, resulting from past events and, with respect to such events, our reliance on loss reports received from cedants and loss adjustors, our reliance on industry loss estimates and those generated by modeling techniques, changes in rulings on flood damage or other exclusions as a result of prevailing lawsuits and case law; the impact of one or more large losses from events other than natural catastrophes or by an unexpected accumulation of attritional losses and deterioration with loss estimates; the impact of acts of terrorism, acts of war and related legislation; any changes in our reinsurers' credit quality and the amount and timing of reinsurance recoverables; the continuing and uncertain impact of the current depressed lower growth economic environment in many of the countries in which we operate; our reliance on information and technology and third-party service providers for our operations and systems; the level of inflation in repair costs due to limited availability of labor and materials after catastrophes; a decline in our operating subsidiaries' ratings with Standard & Poor's Financial Services LLC ("S&P"), A.M. Best Company Inc. ("A.M. Best") or Moody's Investors Service, Inc. ("Moody's"); the failure of our reinsurers, policyholders, brokers or other intermediaries to honor their payment obligations; our reliance on the assessment and pricing of individual risks by third parties; our dependence on a few brokers for a large portion of our revenues; the persistence of heightened financial risks, including excess sovereign debt, the banking system and the Eurozone crisis; changes in government regulations or tax laws in jurisdictions where we conduct business; changes in accounting principles or policies or in the application of such accounting principles or policies; increased counterparty risk due to the credit impairment of financial institutions; and Aspen or Aspen Bermuda Limited becoming subject to income taxes in the United States or the United Kingdom. For a more detailed description of these uncertainties and other factors, please see the "Risk Factors" section in Aspen's Annual Report on Form 10-K as filed with the SEC on February 19, 2016. Aspen undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the dates on which they are made.

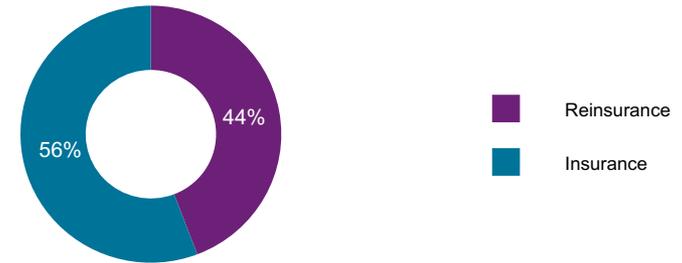

In addition, any estimates relating to loss events involve the exercise of considerable judgment and reflect a combination of ground-up evaluations, information available to date from brokers and cedants, market intelligence, initial tentative loss reports and other sources. The actuarial range of reserves and management's best estimate represents a distribution from our internal capital model for reserving risk based on our then current state of knowledge and explicit and implicit assumptions relating to the incurred pattern of claims, the expected ultimate settlement amount, inflation and dependencies between lines of business. Due to the complexity of factors contributing to the losses and the preliminary nature of the information used to prepare these estimates, there can be no assurance that Aspen's ultimate losses will remain within the stated amount.

ASPEN OVERVIEW

- Global specialty insurer and reinsurer with long-term track record of shareholder value creation

Aspen Insurance continues to diversify and expand its global product offering⁽²⁾

ASPEN INSURANCE: ENHANCING A LEADING GLOBAL SPECIALTY INSURANCE FRANCHISE

- Track record of investing for profitable organic growth, e.g. U.S. Insurance platform
- Aspen Insurance infrastructure was built to be leveraged for greater scale
- Strategies to accelerate the growth and profitability of Aspen Insurance:
 - Aligned business structure more closely with clients and product distribution
 - For globally traded risks, business organized into 13 product lines
 - For regionally traded risks (e.g. UK and U.S.), local management and responsibilities
 - Enriched targeted areas of underwriting expertise:
 - Hired David Cohen, a best in class specialty underwriting leader with a successful history of running a global specialty business
 - Promoted internally and hired seasoned global underwriting leaders to manage global lines; hired select underwriting experts and upgraded underwriting talent in key lines
- Expected strategy outcomes:
 - Short term: Decrease volatility in Insurance business by evaluating line size, exposure profile, reinsurance arrangements, and business mix under new global leadership, positive GWP impact expected in 2017 and beyond⁽¹⁾
 - Medium and long term: Lower loss ratio driven by less volatility⁽¹⁾

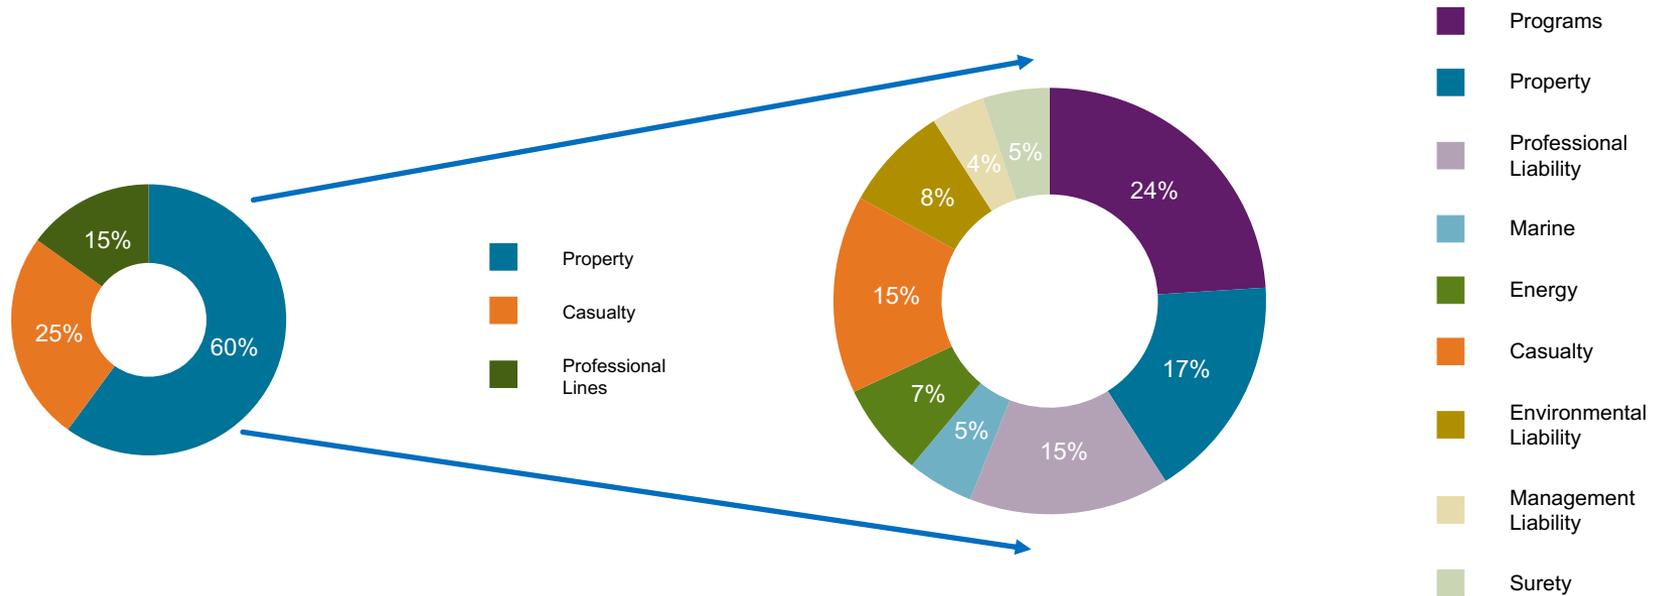

Anticipate larger, more profitable business, more stable outcomes and better loss ratios⁽¹⁾

BUILT A DIVERSIFIED U.S. SPECIALTY INSURANCE PORTFOLIO

2010 U.S. INSURANCE TEAMS GWP: \$167m

Q3 2016 LTM⁽¹⁾ U.S. INSURANCE TEAMS GWP: \$891m

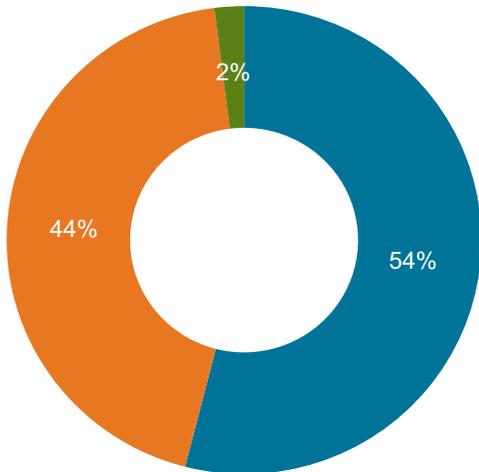

- Diversified portfolio with broadening range of product offerings focused on delivering strong premium growth and solid underwriting margins
- Over \$250m of net operating losses carried forward; can be applied against future U.S. Insurance profits⁽²⁾

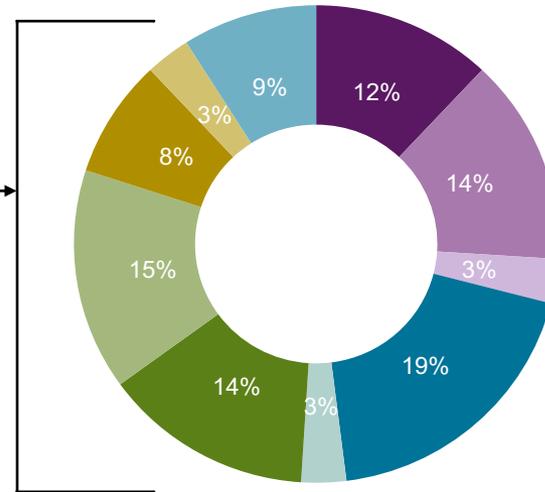

BUILT A DIVERSIFIED INTERNATIONAL INSURANCE PORTFOLIO

Q3 2016 LTM ⁽¹⁾ INTERNATIONAL INSURANCE TEAM
GWP: \$874m

Q3 2016 LTM ⁽¹⁾ LLOYD'S
GWP: \$481m

■ Lloyd's
■ UK
■ Bermuda

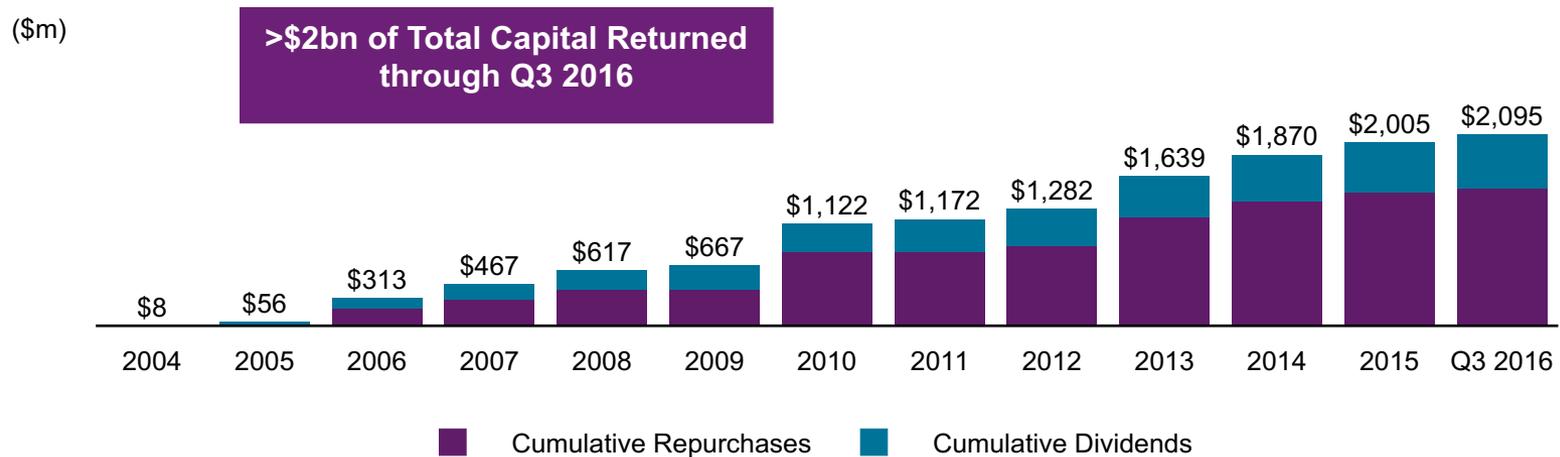

- Energy Physical Damage
- Aviation
- Credit and Political Risks
- Marine and Energy Liability
- Global Excess Casualty
- Financial and Corporate Risks
- Professional and Management Liability
- Marine Hull
- Specie & Fine Art
- Crisis Management

- International Insurance teams diversified by platform and line
- With more volatile rate environment than the U.S.
 - Teams remain disciplined and focused on better rated opportunities
 - Some international lines downsized in response to changing market conditions

CAPITAL EFFICIENCY: SUSTAINED RECORD OF PROACTIVE MANAGEMENT OF CAPITAL

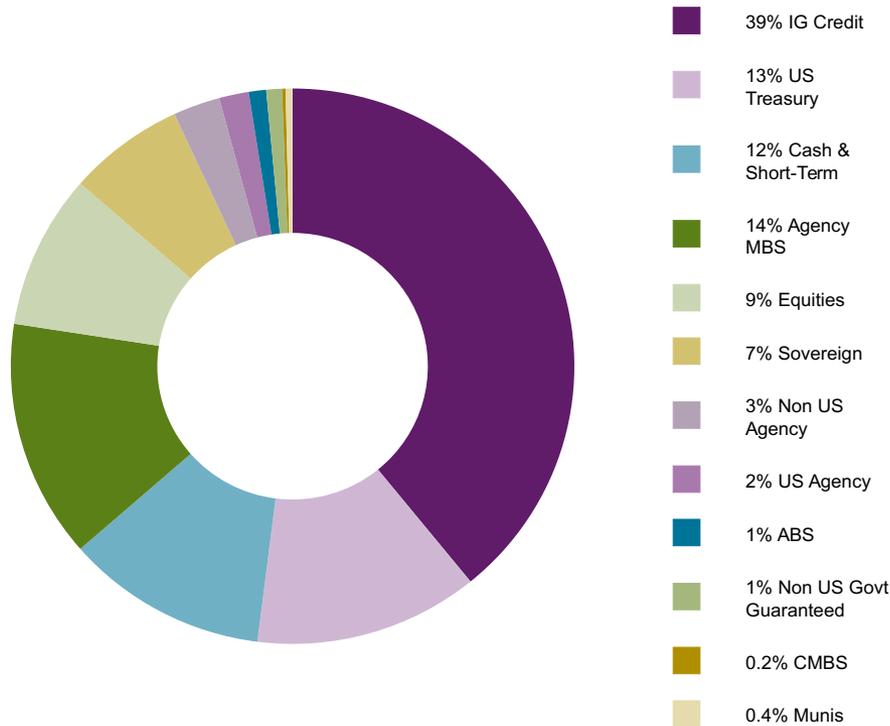

- Continued focus on responsible capital stewardship: hold more than regulatory and risk capital models suggest; return capital to shareholders when it is financially more attractive to do so than deploying elsewhere
- Aspen has generated approximately \$4.6bn of capital since inception
- Returned over \$2bn of cumulative repurchases and ordinary dividends to shareholders through September 30, 2016, including all ordinary shareholder funds raised at our Initial Public and Secondary Offerings
- 9% dividend increase over the last five years
- Returned a cumulative 68% of operating income to shareholders since inception through Q3 2016

CAREFUL INVESTMENT MANAGEMENT AND CONSISTENT INVESTMENT RETURNS

PORTFOLIO ALLOCATIONS As at September 30, 2016

- Stable investment income and total return through all market cycles
- Since 2011 have tactically built the risk asset portfolio and dynamically managed the positions
- 13.1% of the portfolio invested in risk assets (including 9.0% in equities, and 3.7% in BBB emerging market debt)
- Fixed income portfolio duration: 3.64 years

100% = 8.9 billion⁽¹⁾

CONCLUSION: FOCUSED ON SHAREHOLDER VALUE

- Deep underwriting expertise and understanding of client needs and risks
- Pursuing selective, profitable growth in exposures we understand, subject to market conditions⁽¹⁾
- Diversified platform allows us to focus on better rated opportunities as they arise, including:
 - Reinsurance
 - Cyber, Engineering, Bond, Terrorism, Marine
 - Insurance
 - Enhance our global product offering in areas such as Accident and Health, Environmental, Professional Liability, Technology Liability & Data Protection Indemnity, Marine, and Crisis Management

Aim to deliver growth in Operating ROE and Diluted Book Value Per Share over time⁽¹⁾

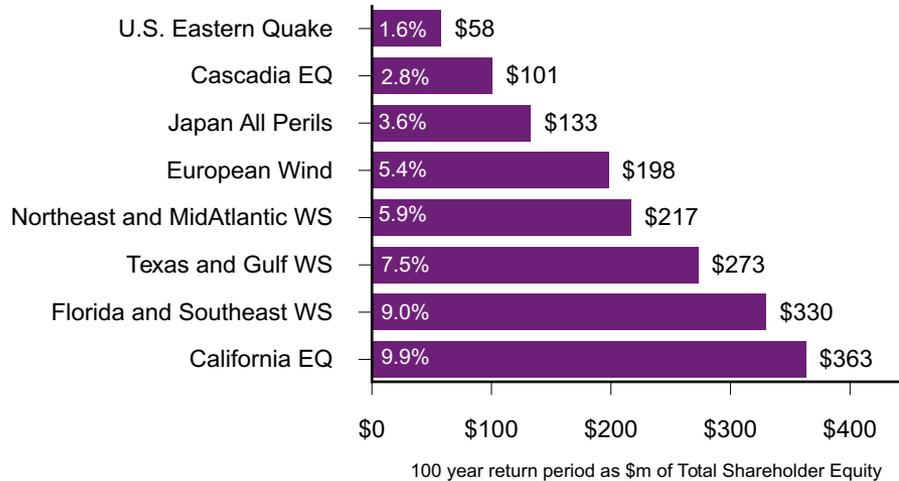

APPENDIX

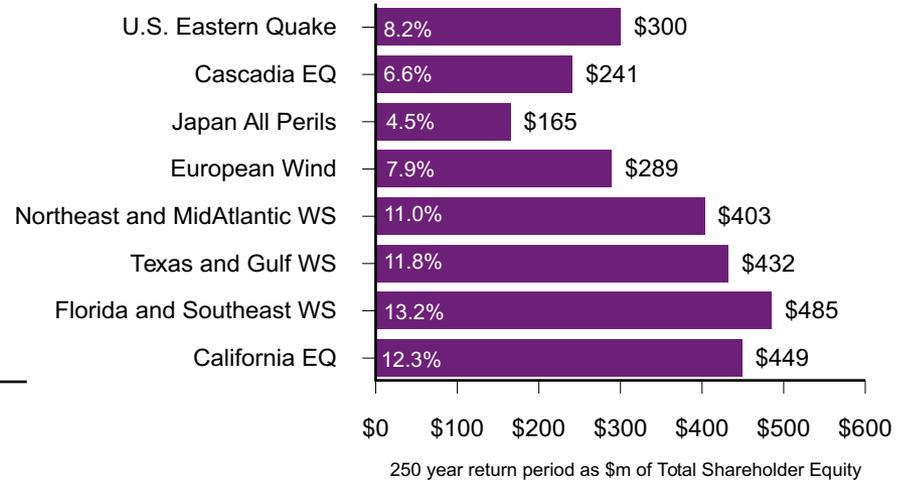

UNDERWRITING EXPERTISE: ASPEN'S NATURAL CATASTROPHE EXPOSURES IN MAJOR PERIL ZONES AS AT OCTOBER 1, 2016

100 YEAR RETURN PERIOD AS % OF TOTAL SHAREHOLDERS' EQUITY AND IN \$ MILLIONS⁽¹⁾

1 in 100 year tolerance:
17.5% of total shareholders' equity

250 YEAR RETURN PERIOD AS % OF TOTAL SHAREHOLDERS' EQUITY AND IN \$ MILLIONS⁽¹⁾

1 in 250 year tolerance:
25.0% of total shareholders' equity

- Probable Maximum Losses (“PMLs”) are net of reinsurance and Aspen Capital Markets' third-party capital

(1) Based on Shareholders' equity of \$3,661.5 million (excluding non-controlling interest and net proceeds of \$241.3 million from the issuance of the 5.625% Perpetual Non-Cumulative Preference Shares) as at September 30, 2016. The estimates reflect Aspen's view of the modelled maximum losses at the return periods shown which include input from various third party vendor models, Aspen's proprietary adjustments to these models, and planned reinsurance purchases. The U.S. regional WS PMLs reflect the outward reinsurance structures in place. Catastrophe loss experience may materially differ from the modelled PMLs due to limitations in one or more of the models or uncertainties in the application of policy terms and limits.
